## General Information

### Registration

Each participant must register in person at the registration desk to collect a conference bag and name badge before attending any sessions. Please make sure to wear your badge for admission to all sessions and social events. Participants who have lost their badges must report to the registration desk to get a new identification. Registration times are on Sunday, 17<sup>th</sup> April from 06:00 - 09:00 pm and during the conference hours.

### Certificate of Attendance

The certificate of attendance for regular delegates and students will only be available on-site at the registration desk and cannot be issued after the conference.

### Poster

The poster area is inside the conference room. Please mount your poster before start of the first poster session or during the first break. Do not remove your poster until the end of the conference. Please remove your poster after the conference before you leave. Remaining posters will be discarded.

### Speaker Information

All presentations must be handed in at the Media Upload Desk preferably one day before your presentation. You will not be able to display your presentation directly from your laptop computer or memory stick. Our technical support team will welcome you at the Media Upload Desk during all days of the conference from 7:30 am. Please meet your chairs and co-chairs inside the conference room at least 10 minutes prior to the beginning of your oral session and get familiar with the technical equipment.

### Conference Proceedings

The final papers will be published in Energy Procedia, an open-access online platform of Elsevier. After the conference you will receive more information about downloading the final papers by email. For publication in the proceedings, all authors of accepted abstracts should have uploaded their scientific paper to the conference website as a pdf-document before 13<sup>th</sup> April, at the latest! If you missed this date please go to the Media Upload Desk. Our staff there will help you manage the upload even after the deadline.
